SAI KRISHNA BETHAMCHARLA

CREATIVE & TECHNICAL LEAD

+91-7995197160 | saikrishnabethamcharla@gmail.com | Hyderabad, India

PROFESSIONAL PROFILE

Creative & Technical Lead at Zai Labs Private Limited, working across AI-driven video production, website development, and graphic design, with hands-on experience directing multi-shot AI filmmaking projects from concept through post-production. Comfortable owning a project end-to-end — creative direction, technical execution, and client-facing delivery — and organizing the work of a small creative/technical team around a shared production pipeline.

CORE SKILLS

AI Video Production & Cinematic Filmmaking

- AI video generation tools: Seedance 2.0, Kling 3.0, Higgsfield
- Structured prompt engineering for cinematic shots — bilingual (EN+ZH) prompts, shot bibles, reference-image consistency strategies for characters and environments
- End-to-end short-form and long-form pipeline: shot planning, generation, and assembly across multi-scene productions

Video Editing & Post-Production

- DaVinci Resolve, Adobe Premiere Pro, and CapCut for post-production and beat-synced editing
- Adobe After Effects for motion graphics and compositing
- Match-cutting and montage assembly for commercial and narrative content

Website Development

- Front-end development with HTML, CSS, and JavaScript / modern JS frameworks
- Coordinating website builds and hosting setup for client projects
- CRM integration and configuration as part of client delivery scope

Graphic Design

- Adobe Illustrator and Adobe Photoshop for branded visual assets
- Brand-consistent document and template design (colour palettes, typography systems)

Leadership & Client Delivery

- Capable of coordinating a small creative/technical team around a production pipeline and shared conventions
- Client-facing documentation: scoping and formalizing work orders, quotations, and invoices to a consistent brand standard

EMPLOYMENT PROFILE

Creative & Technical Lead — Zai Labs Private Limited

August 2026 — Present

- Leading creative and technical delivery across website development, AI-driven video production, and graphic design for client engagements
- Owns client business documentation — standardized to a consistent formal brand template
- Coordinated a client website, CRM, and hosting engagement covering full scope of work

EDUCATIONAL QUALIFICATIONS

- Postgraduate Diploma (PGD), Kingston University — 2022
